It became an independent benefice in 1859. The oldest of the three bells in the church dates back to 1657.

Lovely Villages

Herranen

Herranen is located about five kilometres west of the centre of Virrat, between Lake Toisvesi and Lake Tarjanne. The two waterways are connected by one of the most beautiful canals in Finland, the Herraskoski Canal. The Heritage Village is a museum area on Marttinen Island, showcasing the agricultural and forestry tradition, including the Rajalahti House Museum, the Hali Lumberjack's Cabin Museum, the War Veterans' Museum Room and several buildings of local historical value. Marttinen Youth Centre also operates on the island, offering a wide range of tourism, programme, meeting and banquet services throughout the year. The Heritage Village has a restaurant specialising in traditional dishes and a summer kiosk. It also hosts several exhibitions and events during the summer, including the Midsummer Market. There is a pleasant public beach and a few guest marina spots near the Heritage Village. On the other side of the island is the beautiful Herraskoski rapids, a popular spot for fly-fishing, and a nature trail with a bird tower.

Kotala

The Kotala rapids, another popular fishing spot, are located in the bear hunter Martti Kitunen's home village. The artefacts in the old salt storage exude history, as does the collection of old coffee jars in the small house museum. The village shop sells local produce, fishing permits and has an online and information point. Several annual events and markets are held at the Kotala House.
www.kotala.fi

Killinkoski

The Killinkoski Old Tape Factory offers a diverse range of museums and exhibitions, all of which are free of charge. The beautiful village road and Killinkoski Church, a wooden church designed by Finland's most famous church architect Josef Stenbäck in 1928, are also worth visiting.
www.killinkoski.fi

Jäähdysohja

The village is home to the Toriseva ravine lakes and a wide range of tourism services. Jäähdysohja is a lively tourist and summer resort and a vibrant cultural village with art galleries and exhibitions, a variety of accommodation services, a camping and caravan site and several summer cafés. The village offers a variety of fishing, sports and hiking opportunities, as well as great grounds for berry and mushroom picking. There is plenty to see in the village: the old village road with its mills, Lakarinharju ridge and, for the more adventurous, the Oraniemi ruins from the Bronze Age. In the Village Hall Jukola, you will find, among other things, the photographic exhibition of I. K. Inha.
www.jaahdysohja.net

Härkönen

Härkönen's attractions include Kirsti's Gallery and the Matias Chapel, while the Keituri railway bridge is also an interesting attraction. There are guest marina spots in the village. For sports enthusiasts, there is the Pirkan Taival hiking trail and the Kalevankierros cross-country skiing trail.
[f Härköskylä](https://www.facebook.com/Harkkoskyla)

Ohtola

Ohtola has an old shingle mill, which is traditionally used to make shingles by water and machine power. There is also a memorial to brothers-in-arms called Brothers, Bring Me a Drop of Water.

Kurjenkylä

Kurjenkylä is a village of just over 300 inhabitants on the western and south-western border of Virrat, on the border of Alavus, Kihniö and Seinäjoki. The village landscape is dotted with numerous marshes and lakes, and the Kurjenjoki River flows through the village. The village hall, located on the site of the former school in a watershed, is a popular venue for larger parties and a variety of sports activities.
kurjenkyla.wordpress.com

Vaskivesi

The beautiful village of Vaskivesi offers a wide range of activities for people of all ages throughout the year. The Myllyniemi Summer Festival, dances, Kuhasoutu fishing competition, moose hunting feast and events at RasinTupa and Café Virtainportti attract visitors from far and wide. The services of the cafés RasinTupa and Virtainportti, Kesämakasiini, the village shop/service station and the summer market, as well as the village's versatile accommodation facilities, add to the holidaymaker's comfort and services. Local producers, such as the Mannila Farm, sell local food directly from their farms. Vaskivesi's beautiful landscapes of fields, forests and waterways are a great place for nature activities: fishing, hunting, berry picking and hiking. The Pirkan Taival and the E6 European hiking trail pass through the village. For sports enthusiasts, there are also sports and volleyball courts and the Myllyniemi public beach. In winter, there are cross-country skiing trails and an outdoor hockey rink. During the summer, the Myllyniemi lakeside dance pavilion attracts dance lovers. A children's playground is located in the yard of the Mimmin metsäkoulu school.
